Japanese Take Two and Destroy Two-Nearly Every Building Damaged.

(By Associated Press.)

CHE FOO, August 24—9:30 A. M.—A 'junk which left Liaoti Promontory on the night of August 21st has jus tarrived here. She reports that the Japanese have succeeded in occupying Antezshan fort, as well as another fort, probably Eizeshan, about a mile southwest of Antzeshan. They have driven the Russians from the parade grounds (which lie about two miles north of the harbor). They have destroyed two forts at Chaechako, which is within the castern fortification, and they have advanced to a point hear Chaechako, This report confirms information received here previously, and which the local Japanese were not insclined to believe.

which the local Japanese were not inclined to believo.

The junk heard firing until midnight of I August 22d. Scarcely a building in Port Arthur remains undamaged. The town shall which was used as a magazine, has been destroyed.

Four large warships unable to fight are at Port Arthur. Only one ship, a vessel with two masts and two funnels, has guns on board.

The fire of the forts not captured by the Japanese together with the effect of land mines, is given as the reason why the Japanese have not yet conquered the Russian stronghold.

It was announced from the Foo Monday that the Japanese had swept the Russians from Pigeon Bay and had captured the northernmost fort of the western line of inner defenses, though Antszshan fort, about a mile northeast of Etseshan fort might also be classed as the northernmost fort of the western line of inner defenses at Port Arthur.

PRESSING RUSSIAN CENTER AROUND GOLDEN HILL

Arthur, With Heavy Losses.

(By Associated Press.)

IJAO YANG. August 23.—According to the information from Port Arthur a furious Japanese attack throughout August 20th was repulsed with terrific loss. This news was received here with the greatest joy.

There has been no serious fighting in this region, but there has been a small skirmish at Anshanshan, where Japanese troops attacked a Russian outpost and were driven off with a loss of six killed. Idao Yang has experienced two days of bright weather, and there is a touch of sutumn in the sqr. The rainy season has apparently terminated.

The pillitary inactivity is credited here to the fact that the Japanese are concentrating all their attention on Port Arthur.

(By Associated Press.)

TOKIO, Aug. 23—5 P. M.—The Japanese Protected cruiser Tsushima alone defeated the Russian cruiser Novik. The first engagement occurred Saturday, August 20th, and the Japanese protected cruiser Chitose finished the destruction of the Russian ship on Sunday.

The Tsushima found the Novik off Korsakovsk harbor at 4:30 o'clock in the afternoon. She immediately signalled her discovery to the Chilose by whreless telegraph and at once attacked the enomy. The Novik was hit frequently by the fire from the Japanese cruiser and at 5:40, she retreated to the inner anchorage at Korsakovsk, She was then enveloped in white sinoke and evidently on five. The Tsushima had received projectiles through bunkers Nos. 5 and 8. She was Jesking badly and was forced to withdraw fout of range of the Novik's guns for temporary repairs.

(Special to The Times-Dispatch.)

CHESTERFIELD, V.A., August 23.—The county supervisors held their regular meeting here yeaterday and laid the county levies for 1905, fixing them at the same rate as heretofore, namely, sixty cents on the hundred dollars. Subdivided, the general county fund will get twenty cents, the road fund twenty, and the county and district school funds twenty. The total expenditures for last year, not including the school expenses, amounted to mearly \$30,000, a considerably higher figure than the average, owing in part to the cost of equipping the road force under the new law. The sixty cents levy, together with the considerable balances in the treasurer's hands, was considered sufficient to provide for the current expenses and leave a good margin for extraordinary demands.

The contested petition for a change in the present fence, law in Winterpock election district was passed upon by the board, and the "no fence" law established, which now obtains in the whole of Clover Hill magisterial district.

The matters of repairing or rebuilding Falling Creek bridge, on the Federaburg Turnpike, and of strengthening the jal windows and concreting the floors were continued until the September meeting. A petition of the majority of the process of Chester for the opening and Dodamed Street for public travel across the Atlantic Coast Line and Farming and Powhatan Rallroads was presented to view the situation and redence of P. The county road force is now at work on the three mile stretch, from the courthouse to Centralia, and some substantial work is being put in by Superintendent A. A. Phaup. more one of a weight international conference than that of a gathering of morry-makers.

The capital to-night is filled with sin-lister rumors of Port Arthur's desperate straits. The superstitious are predicting the fail of the fortress on the day of the baptism of the Czarevitch, but this is cossily traceable to the fact that several big Rtssian reverses have occurred on Russian fete days.

It is reported that a message was received from Lieutenant-General Bloessel to-night, which was sent from Port Arthur on the night of August 22d, by way of Che Foo, saying that a desperate assault by the Japanese had been in progress during the previous forty-eight hours. No confirmation of this report can be had. While the general staff does not conceal its anxiety, the best millitary authorities have not abandoned the hope that General Stoessel will be able to hold out.

The Tapral has requested Sir Pelham Warren, the British consul-general, to order that the repairs to the Askold be stopped. The British consul-general has taken no action as yet.

There is a Japanese fleet outside the harbor awaiting developments. A visit to the Almold shows that her hull is not in condition to go to sea. The repairs on the Russian cruiser's boliers and funnels has been rushed, but the replacing of the damaged plates in her hulls has pursued in a desultory mainer.

In view of the circumstances existing here, certain prominent firms made a request of American Consul-Gen. Goodnow for the protection of cargoes and wharves near the Askold. This request was forwarded by Mr. Goodnow to Rear Admiral Stirling, in rommand of the American feet there, who has the matter under consideration.

LONDON, Aug. 23.—The Foreign Office has ordered the British officials to Durban, Natal, to make a complete report of the direumstances connected with the reported examination of the papers of the British steamer Comedian, by a Russian auxiliary cruiser, off the South African coast. If the report should confirm that the Smolensk was the vessel which made the examination, then a vigorous protest will be made through Ambasador Harding. and the attendance was the smallest for years.

Early on the grounds, however, were State Senator W. P. Barksdale and Colonel Joseph Button, chairman of the District Committee.

As soon as Mr. Button Galed his conference with the County Committee, Mr. Barksdale began his speech of one hour. He dwelt on the personnel of the two presidential tickets, showing the filmsiness of Mr. Roosevelt's claim as military hero and his decided negrophilistic tendencies. He was an enthusiastic follower of Mr. Bryan, but was now a hearty supporter of Parker and Davis, because he believed them to be safe, able men, who having worked their way from humble stations to positions of commanding influence, could be relied on to represent the conservative common-sense of the country.

But for the sweltering heat and other unfavorable conditions. Mr. Barksdale would have presented the rationalle of a high protective tariff and explained with it is that certain goods manufactured in this country can be bought cheaper in Europe than at home. His speech, however, was well received.

MUNROE AND JEFFRIES PREPARING FOR FIGHT

REPUBLICANS ACTIVE.

Other—District Convention Soon.

It is expected that District Chairman M. M. Williams, of the Republican party, will issue his call this week for the Republican convention to name a candidate for Congress in this district. The convention will probably be called for a date near the middle of September. The situation in local Republican circles has been complicated by an independent movement on the part of some colored Republicans to nominate one of their own race for Congress. This movement is under the auspices of the Negro Rosseveit and Fairbanks Club. Just what it will amount to is problematical. A well known Republican last night expressed the belief that if the negro Republicans could be gotten together and kept together they could outvote the white Republicans of this city.

The Williams and Treat factions of the party are still at war, and a lively time is expected when the mass meeting is called to name this city's quota of delegates to the congressional convention, and this will be still livelier if the negroes stand losether for the nomination of Johnson.

He expressed a willingness to have the regatia about September third, if arrangements could be made for that time. The Virginia Boat Club will order a new shell as soon as possible. Its defeat in the recent races with the Ariels and Arundels was attributed by the critical the slowness of that heat, which is about twenty years old. PARIS, August 23.—George Leander died this morning from injuries sustained in a terrible fall at the Pal Au Princes on Sunday last, as the result of running into a motor-cycle which was pacing a race, in which an attempt was being made to break the record for one hour. There were three cyclists in the race. At the time of the accident Leander was traveling at a pace of fifty-seven miles an hour, and was more than a lap ahead when he was thrown over the handle bars of his machine and fell on his head. He was removed unconscious to a hospital and did not regain consciousness up to the time of his death.

SAN FRANCISCO, CAL., August 23.—
Munroe has made his last public appearance until he faces Jeffries next Friday
night. He had the gloves on to-day for
several fast rounds, and was put through
a course of signal work by McCoy. This
vais followed by limbering up on the road.
Munroe will hereafter be schooled in privaite by McCoy.
Jeffries inclined toward the anti-breakfagt cult this morning, cauling only a
sherry and eggs, After a short sprint
on the road he put in some lime in the
symmasium boxing and wrestling, concluding the day with a run on the road.
He will work up to the day of the fight. (By Associated Press.) MORNING STAR WINS THE NORFOLK STAKE
